BLUESCAN
HIGH CASTABLE RESIN

Excellent Printability

Good Castability

UV Post-curing: mandatory

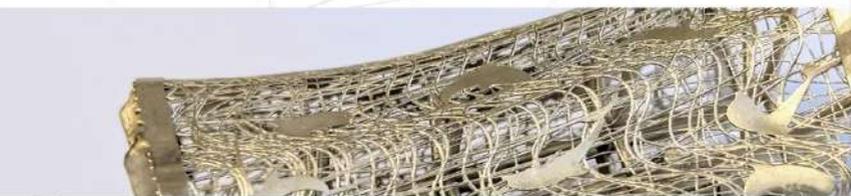

DLP and LCD machines

X-Wax Filigree is an advanced castable resin designed for **ultra-fine filigree and lightweight jewelry** requiring high precision as well as dimensional stability. It enables reliable printing of **extremely thin and delicate** geometries, such as **filigree patterns and micro settings**.

The resin delivers **smooth, highly detailed surfaces with minimal polishing, stronger models than traditional wax prints**.

Moreover, it offers up to **5x faster, cost-effective LCD and DLP printing**.
